## PLANNING & DESIGN

Design thrives to strengthen the 3 main qualities of the site – exclusive high ground, lush surrounding greeneries and serene ambience.

Site are layout to create a huge private courtyard, enjoyed by all 3 blocks. Site coverage is deliberate kept low to maximize greeneries.

All blocks' views include internal landscape view, borrowed view of neighbor greeneries eg the foresque bungalow site and Purvis landscape. Mid to high floor units also enjoy far view over the neighbor blocks and trees umbrella eg Botanic Garden.

Layering of ground landscape also create many interesting spaces.

Extensive sky planters with shrubs and trees are introduced to continue the bungalow within greeneries concept to high levels.

Position of façade sky trees are staggered to allow ample grown space and sun light as well as interesting façade language.

Façade materials such as glass, metal, paint coupled with green creepers , shrubs and trees are used to create a modern sleek architectural within tropical greeneries setting.
